application

Vivastyle® Paint On Plus

Paint on a bright new smile!

Vivastyle® Paint On Plus is a unique varnish for whitening teeth without having to use a tray. The preparation contains six per cent hydrogen peroxide and the provitamin D-panthenol for the gentle lightening of teeth.

- ✓ Up to 10 times higher concentration of ingredients after drying
- ✓ Precise application with a brush is ideal for individual or crowded teeth
- ✓ No trays and other accessories required
- ✓ Only 10-minute reaction time per application
- ✓ Varnish does not dissolve in saliva

VivaStyle® Whitening Gel 16 %

Effective and gentle

After having received suitable instructions from the dental team, patients can use VivaStyle® Whitening Gel 16 % easily and comfortably at home with a customized tray. It contains 16 per cent carbamide peroxide* for effective and gentle whitening.

Clinically proven

Precise dosing and application from a calibrated, resealable, fine-tipped syringe

Optimum distribution

due to smooth consistency

Pleasant mint taste

Low post-whitening side effects such as sensitivity

Barely influences the hardness

of the enamel

* 16 % carbamide peroxide correspond to 5.8 % hydrogen peroxide
